

## **Royal College of Emergency Medicine (RCEM) Professor**

### Job Description

#### *(i) Terms and Conditions*

The primary purpose of the post will be to give recognition to sustained and continuing excellence in academic emergency medicine (which would apply to both university academics and those undertaking academic work outside of a university setting). The appointment will promote the profile of the recipient, their work and by association the academic profile of RCEM.

Relevant academic work could be excellence in either teaching or research but would be expected to include some element of both.

The post will be of four years duration, the next appointment being in summer 2019. At any one time there will be two College Professors in post. The recipient will be required to either give a College Academic Lecture (during the Annual Scientific Conference) or coordinate a conference theme during the second year of their tenure as RCEM Professor.

The title "Professor" should only be used as a post nominal title (i.e. Dr Joe Bloggs, Royal College of Emergency Medicine Professor); the fact of appointment as "Royal College of Emergency Medicine Professor" can be used on letterhead, signature line, CV and on the appropriate part of grant applications.

The post will be honorary although there support costs of £5000 per year are available.

Selection for the post will be by Council, with the Research Committee co-ordinating and short-listing nominations and applications. The Council will convene an interview panel consisting of College Officers, Research Committee Chair, College Chief Executive and an external (outside emergency medicine) academic(s) of high standing.

#### *(ii) Duties of the post*

- Continuation of excellent work in academic emergency medicine throughout the duration of the post. (The appointment will facilitate and develop this potential.)

- The post holder should give a one hour named lecture based on their own research at the Autumn Scientific Conference at the midpoint (year 2) of their period of office. This new session would be titled the "The College Academic Lecture".

- The post holder should co-ordinate a conference theme at the end of their period of office (the autumn conference in year 4). This would normally be

based around their area of research/teaching interest (and would usually include presentation of their own research).

- The post holder will be co-opted to the Research Committee and be expected to attend meetings and devote time to assisting with the work of this Committee.
