

Professor Zoe Wyrko
Consultant Geriatrician and Assistant Medical Director – Partnerships,
University Hospitals Birmingham
@geri_baby

Professor Zoe Wyrko graduated in 2000 and was appointed as a consultant in 2009. She develops and implements services to improve the care of older people and is currently working with system partners to develop an integrated care and health model across Birmingham and Solihull, serving a 1.25 million population.

What can a geriatrician do for you?

The learning objectives of this talk are:

- To understand what a specialist older person's MDT can offer to ED teams
- To understand why the current focus on frailty may be causing harm
- To hear examples of some recent innovations that have produced positive results

Dr Mark Baxter
Consultant Physician in Trauma and Orthopaedic Medicine
and Director of Major Trauma, University Hospitals Southampton

Dr Mark Baxter has been a consultant physician in Medicine for Older People and Orthogeriatrics at the Southampton General Hospital since 2009. He has been involved in the management on Wessex Major Trauma Centre, as lead for rehabilitation and Director of Major Trauma since 2012. Dr Baxter has chaired the TARN report on major trauma in older people and sits on their audit committee.

“Stealth trauma”: major trauma in older people

The learning objectives of this talk are:

- To understand the national picture
- To look at “stealth trauma” and the recognition of traumatic injuries in older people
- To learn about frailty screening and older people

Dr Dan Baylis
Consultant Geriatrician, University Hospital Southampton
@drdanb

Dr Dan Baylis completed his undergraduate training in London before moving to Southampton to undertake a PhD and attain CCT in geriatric and general medicine. He now works in University Hospital Southampton specialising in the management of older people closer to home and syncope and is the clinical lead for the ED and Acute Medicine.
